

DISCOVERYZONE SECURITY AND HEALTH POLICIES

In DiscoveryZone, one of our goals is to create an environment that communicates church is a safe and happy place for our children and their families. Precautionary measures are taken to ensure the safety of our children and team members. In an effort to accomplish this, the following security measures have been put in place:

Volunteer Policies

We screen all volunteers who work directly with children. The application process includes an interview and a criminal background check.

Safety Policies

We want to ensure that our children are safe when they come to church. We have a security system for checking and retrieving children from DZ class, and all of our approved staff and volunteers wear identification labels. Instructions are given to volunteers for emergency situations.

Health Policies

We want all of our children to be healthy, therefore, we have specific guidelines for parents to follow to assess their child's health before bringing them to church. Parents should keep their children at home if they observe symptoms of illness:

- Fever (99.1) or elevated temperature
- Excessive coughingVomiting
- DiarrheaDischarge in or around the eyes
- Questionable rashGreen or yellow runny nose
- Any communicable disease

A child that is being treated with an antibiotic should have received treatment for a minimum of 24 hours before coming to church. All care givers and teachers should follow the same guidelines.

Security Check-In

All children age 8 weeks through Pre-K use the electronic security system for check-in to Discovery Zone classes. Check-in begins 15 minutes prior to the worship start time. Parents will check-in their children at the Discovery Zone check-in desk. Children wait in class until parents pick them up and match the parent/child label with the classroom teachers. Parents need to pick up their children no later than 10 minutes after the end of class.
