Buyers understand that Carpentree will need time to gather all the Sales Agreement Forms from the rest of the Buyers to accurately calculate which MOQ (Minimum Order Quantity) levels on each item. After calculating the highest MOQ level that met it's quantity requirement, Carpentree will invoice the Customer's desired quantity at that level's price. Carpentree will communicate to Buyer which MOQ levels were met for each item the Buyer selected. If a MOQ level is not met for any item, then that item will default back to Carpentree's standard catalog price. Buyer understands once the MOQ levels have been calculated, this Sales Agreement is final. This order form shows best case cost as well as highest cost to stores.
