NMI June Focus: World Mission Broadcast

Now more than ever, we hold on to the connections all around us, strengthening our sense of community. Thanks to today's technology, we are able to connect with others worldwide and broadcast for the better. Now more than ever, it is time to refocus and share the message of hope in Jesus.

World Mission Broadcast desires to create a place for people across the world to connect with each other in a time where it is needed now more than ever. We are reaching beyond borders and barriers to share the light of Jesus in the dark corners of our world.

Now more than ever it is important to equip our partnering ministries with the tools they need to continue to connect with others despite this time of uncertainty.

Congratulations Carolyn!!
