

Meet the Facilitators

Megan Bozell

My story starts out with the loss of my first pregnancy through miscarriage in 2010. It follows with the loss of my firstborn, Reid, in September 2011 at 5 months old to SIDS.

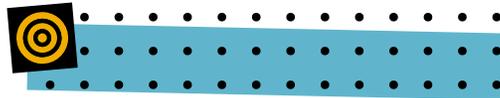

I am by no means an expert, but I have been there and want to share with you on this journey. When I lost Reid, I had no one to turn to who understood what I was going through.

I won't say I know what you're feeling, but I will listen. I want to offer an outlet for your grief. Please join us in this ministry.

Kylee Jones

In 2005, my husband and I lost our son; he was stillborn. Then again in 2011, we suffered another loss, but this time it was a miscarriage. After losing 2 babies, I decided it was time to do something to help other families and parents who has suffered the loss of a baby as well. I have walked this path, and I hope that through this group, Megan and I can offer help and support while you travel through your journey of grief and we walk alongside you. My hope is that you know you are not alone, and we will help in any way you need.

Support Group

I'm here, I care.

Anytime,

anywhere.

Why we care...

We are coming to you as mothers who have loved and lost. Infant loss comes in many forms. Babies can be lost in the womb or once they have been born into this world, even before they take a breath.

When we went through our own tragedies, there was no group in this community or surrounding communities that could offer us a safe place to openly share our grief and fears for the future. Families and friends tried to comfort us but through all their good intentions, they had no idea what we were feeling and dealing with.

Angels of Hope hopes to reach out to those who have walked the same path and together, work to restore hope for the future.

Love,

Megan & Kylee
