

Evacuation Routes

Fire/Emergency Evacuation Plans:

1. Grab sign-in roster, assemble ALL children and follow established evacuation route to the appropriate Parent Connection Area.
2. Elders and other key leaders assemble at nurseries to assist in evacuation.
3. Stay away from building and emergency vehicles.
4. Do an immediate head count to be sure you have all kids who are listed on the roster.
5. Have children stay seated until the "all clear" has been given to return to the building.
6. OR if you are instructed, begin parent pick-up outside by comparing security labels and child's nametag. Be sure to check kids off the class roster as they are picked up.
7. Stay in designated area until all children are claimed by a parent.
