June 2018

Rainy season has started. As we write this it has rained non-stop for 4 days and doesn't look like it's going to stop anytime soon. We are thankful for the reprieve from the heat but the 90% humidity and mold is not so fun. Thankfully our house and ministry area are in the elevated hills so we are not effected by any flooding unlike many others here who have to either evacuate or experience their entire house flooding.

Thank you for praying for our feeding center training meeting that we mentioned in our last update. It went very well with a lot of excitement and participation from local community leaders, teachers and mothers. We were able to establish some key relationships in this area, which will open doors for Bible studies to begin soon. With the help of food sponsors/donors and community participation, we are planning to feed all of the nearly 600 malnourished students in this one elementary school. This is going to take a lot of teamwork and community involvement but everyone seems to be on board and willing to help.

Feeding Center Training and Community Outreach

## PRAYER REQUESTS:

- ⇒ More training meetings happening in the next few weeks.
- ⇒ That the Gospel will be proclaimed throughout all of this and many Bible Studies will be started and people saved.
- ⇒ Continued cooperation with the Principal of the school and community leaders.
- ⇒ Community Leaders who will be volunteering their time and resources to help.

Thank you so much for your prayers and support!
