A Step of Faith

Two newsletters ago, we introduced Abenezar. He had many questions about what he had been previously taught throughout his life. As we drove to soccer each week, we found the answers to those questions in God's Word. These answers led him to have a desire to study the Bible as much as he could.

A few weeks ago, Abenezar was presented with an amazing opportunity. Pawlos, who regularly translates our Sunday sermons, needed to visit family and was not able to be there for the service. Because translation is a very important part of our Sunday, we asked Abenezar if he would be willing to do it. He eagerly said yes!

In spite of the nervousness he felt as he stood in front of the congregation, Abenezar translated the sermon excellently. He has continued to do an amazing job contributing his ability to translate for other messages since then. The culture here says a degree qualifies you to speak in front of others, but we praise God for giving Abenezar a willingness to serve and the courage to do so.

A Big Transition

Our oldest, Julieana will be graduating from high school May 25th. We are excited to see her begin college but know this means we will take her back to the U.S. to begin this new phase of her life. She will be attending Southwest Baptist University to pursue a Bachelor of Science in Nursing. Please keep her and our family in your prayers as we make this Big Transition.

Bethel Testimonies

We would like to introduce you to two more members of our church family. Feven and Beza are teenagers that have been attending Bethel for many years. They have both been through Discipleship 1 and are currently going through Discipleship 2. Pray for them as they grow in the knowledge of God. Please visit our website to watch them share their testimonies. www.proclaim-hope.com

- Continue to pray for us as we learn Amharic.
- Pray that many doors will be open to share the gospel as we try to communicate as best as we can while learning the language.
- In June, we began to experience vehicle issues that led to the need to rebuild our engine. After many months, we are still dealing with this process.
