Subject: April 2018 Greetings from the Novaks
Attachments: Esther & Friends.JPG

Dear Friends in Christ,

The Lord has helped us complete the book of James and I Peter in the last 2 months in the study of our New Testament Survey in Swahili for our Bible institute in Kenya. After completing each lesson they are sent to Pastor Andrew of the Bible Baptist Church of Noonkopir to teach. ***The students come from the various sister churches and Bro. Andrew said that he has been having about 17 come to study together.***

James is a powerful book and teaches us such verses like in ***James 1:2 that we should count it all joy when we fall into divers temptations (trials)***. One lady who has been a member of Bible Baptist for many years has had a consistent testimony of praising God in spite of her physical sufferings. Esther pictured in the front of this picture has suffered with facial cancer even losing her one eye to the dreaded disease among other problems in her life. Esther also lost her mother this past week. Please pray for this dear lady as she has a daily struggle just to live.

On a different note, the political scene in Kenya has improved a lot since last year. Also we are happy to say that most parts of Kenya have received a good amount of rain. What an answer to prayer! Bye for now and ***Thanks for your Faithful Prayers and Support.***
