Dear Friends in Christ,

We thank the Lord for the funds that came in to replace the funds we used for Bro. Peter Kasamba's well project in Tanzania. Thanks to all those who helped with this special need. The well is done and now the Kasamba Family has plenty of water. Bro. Peter did contract pneumonia though. He was really sick this past week, but after getting treatment and because of the prayers of God's people he is getting better.

Nancy has also improved, although not completely right but well enough for our next step. This next month Nancy and I will be traveling back to Kenya. The people have done very well in our absence, but soon we will join them once again in the work of the Lord. Nathan is doing well, and he is in the middle of a special training course for an employment position tailored to his needs and talents. He has a positive outlook on life, and we thank the Lord for him. Thanks for praying for us as a family. What a mighty God we serve!

Another special thing that is happening, is one of our young men in the Bible Baptist Church of Noonkopir named Kenneth had outstanding achievements in his scholastic efforts in Kenya. As a result he won a full scholarship to study in a college near Pomona, California. I believe that he will be studying Computer Sciences. Bro. Kenneth has been in our church in Kenya for a long time with his family and has been a special blessing to us and the Church. Please pray for Kenneth as he is traveling to the USA (first time to fly) this week. Please pray for his safety and for God to guide him in his life and studies, and that he will get involved with a good church. I have already found a good church for him to attend. He is pictured in a couple of pictures. (Ken has on the red vest.)

As always, Thanks for your Faithful Prayers and Support!

Nancy Novak
