Dear Friends in Christ,

***Thank the Lord that we made it back to Kenya!*** There was a delay in Chicago that caused us to miss our second flight in Germany, so we had to stay the night. Actually it helped us get close to the time zone in Kenya since Germany is only an hour behind Kenya. Then they lost one of our bags but finally we were able to pick it up on Sunday night. All the baggage came through OK with no problems. We were welcomed by Pastor Andrew and a new member named Rafael at the airport. We were blessed to find our home in Kenya in good order also. Nancy has been very busy with sorting through the suit cases and getting our things in order. I have been busy getting the cars running right and insuring them again but things should be back in shape soon. Thanks for praying for our trip ('safari' in Swahili). Transition is always a traumatic and stressful experience, but God's grace brought us through and back home to Kenya.

We were blessed to be able to attend the ***Bible Baptist Church at Noonkopir*** with Pastor Andrew and his wife Jane. ***The services went very well and there was a good attendance.*** I preached in Swahili and it went well. Nancy also helped with one of older kids classes. The people have been faithful and doing a very good job in serving the Lord.

***Please continue to Pray for our Mom June Novak who fell again and has a new fracture on her pelvic bone.*** The recent MRI showed that there was a mass in the area that could be a hematoma or cancer. We are asking God that it would be just the hematoma. Mom was transferred to a different hospital to accurately assess her case. It is our desire to be exactly where God wants us to be. He has promised to guide our steps and lead us each step of the journey, so that is what we are seeking and expecting.

***As always, Thanks for your Faithful Prayers and Support! They keep us going.***
