Subject: SOS - Emergency Prayers Needed

Dear Co-laborers, Please pray ! Charles came into contact with 220/3 phase electricity while doing some repair here at the Mission. He could not get free from it and was thrown backward to the cement floor. God gave him presence of mind and strength to pull his leg up and over the wires, then dropping his leg over the top of the wires, pulled them from his hand. After about 15 seconds he was able to call for help. Two of the Pastors and I heard him about the same time. We ran and found him laying on the floor. They moved the wires and carried him outside. He has serious burns to his right hand but God protected him. So far there seems to be no apparent permanent damage except for his back. The extent of that is yet to be

seen. Having had back injuries before, he is in a lot of pain. cannot lay down, nor hardly walk. We do not have proper medical facilities for these things and he cannot tolerate travel. We are praising the Lord for his protection, that he is still here and seems ok as far as we know concerning the electrical. We appreciate your prayers so very much. Will stay in touch.
