

# WORLEY REPORT FROM PHILIPPINES

## DOUG AND HELEN

September 2018

Dear Pastor & Friends,

God has been good and shows His mercy over and over. Praise the Lord, we have moved into the 2<sup>nd</sup> floor of our New Building. Any time, the inspectors will come and inspect and give a clearance to finish with a baptistery and kitchen. Also, our extension work is building and almost finished. God has supplied our needs over and over again. We give God the glory!

Another blessing was with a man that is a professor in the local University giving our young people Piano lessons. Most of them have played at the offerings and also with special singing. It is thrilling to see how these young people have taken opportunity and been blessed. Also, we rejoice in our Class Extensions on Saturday with around 100 every week. Many of these kids would not be allowed to come to Church but hear the gospel in a home, under a tree or some place in the open. We have had a promotion in our Church and have had many first time visitors and mostly from class extensions. The housing estate next to our home, we have been praying and inviting since we arrived in the Philippines. We had 2 adults to come the last 2 Sundays. Pray for our Class Extensions and the S.S. promotion!

You can never go to a mission field and feel sorry for their poverty! Over and over again you can help people but they will not come to Church or improved themselves. The only way to get them to overcome their living standards or poverty is by giving them the Gospel. Thanks for your faithfulness in carrying out the Great Commission and holding the ropes so we can keep spreading the Good News of the Gospel. I believe prayer is the answer to people getting saved, building built, new people coming into the Church. We must take time!

In His Care,

Doug & Helen
