

Technology CONTRACT

I WANT TO HAVE FREEDOM to use Technology. My parents want to trust me to use technology.

In order to earn trust and earn freedom:

WE AGREE...

- That using technology is my privilege and not my right.
- That it is healthy for my family to take breaks from technology and spend time together. So, I will participate in “Technology Breaks” when my parents ask me to without complaining.
- That for my own safety, I will not give out personal information like my phone number, address, the name of my school, or where my parents work without talking to my parents.
- That I will not bully someone or make fun of them using technology, and I will tell my parents if someone uses technology to do this to me.
- That I will let my parents know my passwords, but I won't give out my passwords to anyone other than my parents.
- That if I receive an inappropriate message from someone on my phone, I will show my parents and ask for their help deciding what to do next.
- That I will talk to my parents before I download an app, software, or program that might cost money or hurt my device with a virus.
- That I will work together with my parents to set a healthy schedule for the amount of time I use technology. I will follow that schedule without complaining.

- That I will work with my parents to determine when it is OK to post a picture of myself or family member.
- That if someone every tries to communicate with me online that I do not know, I will tell my parents so they can help me.
- That I will not sign up for a username and password on a site without checking with my parents first.
- That if my parents tell me to take down a post I publish online, I will do it right away without complaining.
- That all my devices will be turned off at bedtime.
- That my parents have permission to monitor my online activity.
- That I will not create alternate social media profiles that my parents do not know about.
- That I will not lie about my age to join a website or social media profile.

IF I MAKE THESE GREAT CHOICES...

I earn more freedom, and my parents commit to trusting me with technology. I also show that I am pursuing purity, honesty and integrity with technology.

- Philippians 4:8

IF I DON'T MAKE THESE GREAT CHOICES...

I will face the consequences of losing the privilege of technology for an amount of time set by my parents.
