

CHECKPOINT:

As a part of our commitment to minister and keep your children safe, we are introducing Checkpoint to our Preschool and Children's Ministry.

What is it?

Checkpoint is a computerized check-in system for those children attending our classes. Checkpoint produces name badges/security tags for each individual child who attends a class. Name badges/security tags are coded with the parents cell phone number used to match child and parent during the check-in and check-out process.

Checkpoint Locations:

Gym Foyer, East and West side of the Children's area and in front of the choir room.
