

FAITH YOUTH GROUP

2017-2018

*(To Know Christ and
to make Him Known)*

YO FROM DREW

This school year is coming to a close and so is youth group. We have been very intentional this year about living electric with the power of God in our lives. One way we did this was in our Missional Groups. You all did a great job being light in our community. It took dedication and work and I hope you have experienced God's power in your life as a result. God was faithful to give us what we needed and I saw the Spirit work in you! How did you experience this? What did you see happen this year? I hope you are encouraged as you consider these questions. But what I really want to ask you and challenge you is how will you live electric this summer? How will you run the race of faith in God's power? What do you need to do this? Who in your life can help disciple you in your faith? As the saying goes "Never give up, never surrender!"
