Wearing Face Masks at Church

This past week, Collier County has mandated wearing face masks in all public buildings until September 3. While churches are exempted from this mandate, we are aware of the safety concerns and desire to support the community standards. Therefore, although wearing masks is not mandatory, we **STRONGLY** encourage all adults (children exempt) to wear a mask while entering and exiting the building. Please continue to maintain social distancing, as well. After you are seated, feel free either to continue to wear or remove your mask, at your discretion. If a mask is needed please see a greeter or staff member. Thank you for understanding, as we go through this difficult time together.
