

BAY WINDOW 75,000 BTU

TOP/REAR \$4,836.00

DIRECT VENT \$5,628.00

The Keystoker 75,000 automatic coal stove produces a warm, glowing ambiance for any living space. With the heat and efficiency of a hot air furnace combined with the ambiance of a fireplace, this coal fired stove delivers both on aesthetics as well as functionality. With the anthracite coal (rice or buckwheat) this automatic stove uses to operate, the result is a clean burning and efficient coal combustion which is sure to give a smaller home or very large area plenty of heat.

- **Add a door insert for a more personalized look**
- **Has the heat efficiency of a furnace or a boiler**
- **Cleaner burning allows heating in any space**
