

DEEP BOX (HF-70) \$2,799.00 (HF-90) \$3,194.00

- The Deep Box stove can also be called a freestanding stove.
- Add a **door insert** to personalize your stove.
- The best way to burn coal.

The Keystoker hand fired 70-90 requires no electricity but is still automatic. The stove is equipped with an automatic thermostat to regulate the air flow used for combustion, set by a dial, then controlled by stove temperature to provide a steady source of even heat for maximum comfort.

1. Result in most complete burning of coal
2. Extract maximum amount of heat from coal
3. Enables an attractive small parlor stove to heat a large area

Come with: 265 CFM Blower, Optional Brass Trim Fire Door, Top or Rear Exhaust
