NEWSLETTER

**Greetings Faithful
Friends & Churches,**

As Fall is quickly approaching we write to share updates and good news with you! In our last letter we shared many needs and prayer requests for the container that

SUMMER FUND @ LIFESONG CHURCH GREENBRIER, AR

was being shipped for the Water For Christ team which leaves for Africa again this late September. We praise the Lord for getting the container to Accra, Ghana safely without any delays. Thank you for your prayers and donations that made that shipment possible. Air compressors, food, bibles and Christian literature, pumps for water wells and other necessary supplies await the water for Christ team. This container of the Lord's blessing make the water for Christ team's trip much more effective, giving the team supplies to accomplish drilling of wells in a more effective and timely manner while also increasing the work able to be done in the time-frame of a two-week mission trip. We are grateful and the people of Ghana thank you!

Please begin praying for the Water for Christ team as they plan to depart for Ghana September 23-October 6. There are many preparations and logistics that go into planning a trip like this, please pray for these preparations. The Water for Christ Team will consist of Tim, Rodney, Bill and Cathy. Remember to keep them in your prayers. They need energy and strength as the days are long and the nights are short. On most nights The Water for Christ team members get an average of 4-6 hours of sleep. The main goals of this trip will be setting up the new air compressors for drilling, drilling 2 water wells, and holding crusades in the Offinso area close to mission compound. In addition, the team will be doing maintenance on the existing drilling equipment and teaching and training the local Ghanaian drilling team how to operate and service the new air compressors. The Dodge truck we use to pull the drilling also needs some repairs. The team will also prepare and plan for drilling in Northern Ghana for 2017.

**The Water for
Christ Team will
travel to Ghana
Sept 24 - Oct 6**

Team Members:
Tim Tyler
Rodney Castleberry
Bill Hooten
Cathy Tyler

The Lord continues to bless the water for Christ ministry. This August Life Song Baptist Church hosted the first annual Summer Fund fundraiser for Water for Christ in hopes to raise \$10,000. The Lord and good weather brought in about half that amount. The day was threatened with 80% chance of rain and thunderstorms making this outside event almost postponed. All those involved in planning the event prayed eagerly for better weather. The day appeared with no rain and sunshine! Praise be to God! A large car show of 30 plus classic cars and hot rods and the surprisingly good weather drew in nearly 500 people filling up the donations boxes as guests enjoyed live music, hot-dogs and drinks. in addition to churches offering to aid the work of Water for Christ, other local businesses have initiated contact with Water for Christ committing to give a certain percentage of their profits to Water for Christ. We are definitely seeing the fulfillment of Malachi 3:10 which says, *“Bring the whole tithe into the storehouse, that there may be food in my house. Test me in this,” says the Lord Almighty, “and see if I will not throw open the floodgates of heaven and pour out so much blessing that there will not be room enough to store it.”* But with great power comes great responsibility. As the storehouses increase and the Lord brings in the harvest there opens greater doors and needs. Your faithful and undying support is so pivotal to this ministry and words alone are not enough to express the amount of gratitude. But for lack of better words, “thank you”. Water for Christ would not be where it is today without your support and prayers.

Get Your Oil Changed - Help Water for Christ!?

Earlier in 2016, H2Oil Automotive reached out to Water for Christ in hopes of aiding the water crisis in Africa along with sharing the gospel of Christ. H2Oil has selected the mission of Water for Christ to be incorporated into their business model! Proceeds will go towards digging water wells! How cool! Go get your oil changed @ H2Oil in Conway @ Dave Ward/I-40 near Acxiom.
