MERRY CHRISTMAS

Donna Lawrence Memorial Well

The WMA (women's missionary association) of Mississippi (MS) sponsored a water well in honor of the late Donna Lawrence and her service to the WMA of MS. What a great privilege it was for [Water for Christ \(W4C\)](#) to drill this well in her memory. BMMA (Baptist Missionary Association of America) missionaries **Dale & Celia Broom** are Mississippi natives who serve as missionaries to Ghana, West Africa. Dale & Celia have a big interest in spreading the Gospel of Christ through planting churches in northern Ghana. Can you imagine having the police on your side in a foreign country dominated by Islam? Wow, how great is it that WMA of MS have done

W4C drilled a water-well for the [WaleWale Police Department](#). This well will serve both the [police department & the community](#). The well is 75ft. deep and is located in the center of town, the well was sponsored by the [WMA of Mississippi](#).

something to benefit the Mississippi missionaries' mission using W4C as the vessel! Dale and the police commander have already made a positive connection, and he plans to setup some devotions with the commanders staff upon his return to WaleWale. Police check points are setup all through Ghana, often the Police stop "white men" threatening to search and delay their missions in hopes of reaching a bribe. It will be helpful to have a police commander as a friend, he will call ahead with orders to let the missionaries and W4C teams pass easily to carry out mission work!

W4C Ministries • School Crusades

Water for Christ's mission is to drill water wells in communities to provide clean drinking water combined with giving the same community the opportunity to hear and receive living water found in the living Christ. This is what we do, this is our bread and butter; but, let us share with you some other ministries W4C is involved with in Ghana. W4C along with the BMAA, through receiving designated offerings, has been able to help facilitate a women's bread factory in Ghana by teaching women how to make and sell bread in order to be self-supporting. The designated funds have funded a water well, a building, machinery, and the training. Also, with specific donations, W4C has been able to bless women with hand crank sewing machines as a way earn a living. One of greatest ministries W4C does is sharing the Gospel of Christ in the schools of Ghana. This simple ministry is mind blowing. Often because of the humanitarian work we are doing, the school's headmaster (principal) will allow us to come and visit. Other times Pastor Elijah will arrange for us to visit different schools in the WaleWale area. The headmaster will gather everyone or as many as possible into an area and say something like this: "Today, we have strangers in our midst who know God. If you can understand the spiritual things, then it will translate into physical things like schoolwork, so please give them your attention." Brother Rodney, (Pastor of White Hall Calvary Baptist Church, AR) then introduces himself and gives a 15 minute gospel presentation and always closes with an invitation to come to Christ. Then, if possible, we give Bibles and gospel tracts to those who receive Christ or are interested in learning more. At the very first school we visited this past November, we could see an Islamic mosque right behind the public school. We testify that it was at this school where everyone wanted a tract, in fact many fought over receiving one after the message.

By day, I am able to do in Ghana what I can no longer do in the United States. Because of the investment Water For Christ is making in the local communities, we have found an open door allowing us to take the message of Christ into the schools. After declaring boldly that Jesus is Lord and the only way to Heaven in a Muslim dominated area, an invitation is given inviting them to place their faith in Christ. It is amazing to watch hundreds raise their hands and profess faith in Christ. - Rodney Castleberry

School Crusades

This is a powerful, encouraging, and effective ministry that W4C has in Ghana!

Rodney Castleberry of Calvary Baptist White Hall, loves to visit as many schools as possible.
