

# The Remedy

**DISCUSSION GUIDE** | October 26, 2025

---

## BIG IDEA

*Patience has the power to transform communities.*

**Message title:** Envable Patience

**Scripture Reading:** Acts 17:2-8, 1 Thessalonians 5: 14-15 NIV

The fruit of the spirit are often interconnected because practicing one often helps us better develop the others. Patience is unique because it appears to be required for us to display all the others during the times when they are most difficult to display. Losing patience is often the result of an unaddressed fear or concern.

- 1. In what areas of our modern communities do you think patience appears most needed?*
  - 2. What moments in your life do you find yourself short fused?*
  - 3. What underlying fears or concerns do you think fuel a lack of patience?*
  - 4. If patience is not apathy, what systems might we put in place to improve our interpersonal relations? Think boundaries.*
  - 5. If a patient person is understanding, how important is recognition of others fears and concerns in improving our patience with them?*
- 

## THIS WEEK'S CHALLENGE

This week, write down the fears and concerns that might drive peoples lack of patience. Reflect on them so that you might better understand the driving force for peoples behaviors.
