

## Prayer and Thanksgiving

**Rango Bronsema** will be undergoing two surgeries in the coming weeks & months. The first will address some concerns regarding his prostate on, Lord willing, Friday, January 30<sup>th</sup>. The second surgery, Lord willing, will be to implant a pacemaker on the right side of his chest on March 6<sup>th</sup>. As may be recalled, Rango had a pacemaker, but due to ongoing infection around the site, it had to be removed. May the Lord guide the pre-operative preparations for this upcoming surgery.

**Willem Buwalda** was diagnosed with Bell's Palsy and is taking medication to reduce the inflammation of the facial nerve. May the Lord continue to uphold Willem and may He grant Healing.

**Lydia Doornbos** received her second of 6 treatments for bladder cancer this past week. We give thanks that although the process of receiving her treatment is a challenge, there are no side effects from it. May the Lord uphold Lydia as these treatments battle the cancer within her body.

**Linda Landry** received confirmation this past week that she is indeed struggling with a bacterial infection in her sinuses & lungs. With that confirmation, Linda is now being referred to two specialists, one for her sinuses and the other for her lungs. May the Lord grant relief to Linda in her breathing and may the wait to see these specialists be minimal.

**Bill Jonkers** received his third of 6 chemotherapy treatments this past Tuesday. An EEG has been scheduled for February 2<sup>nd</sup> as continued monitoring resulting from Bill's brain bleed. May the Lord grant Healing and Strength for Bill as his treatments continue.

**Anna Bergsma, Lori & Pastor Ben's mom**, is back in her home at AgeCare following hip replacement surgery. The work of physiotherapy has begun and will continue for Anna. May the Lord continue to grant Healing and Relief from the pain and discomfort for Lori's mom.

This week, the prayer schedule has the Peterborough community praying for **Fellowship of Christian Farmers** under the leadership of Mike Sweeney.
