Year Seven of serving in Japan

We are near the end of August. This summer was a busy season of preparing for the coming semester (next week as of this writing!).
I picked up extra hours at my workplace in Jimbunas. There were several mission opportunities such as a mission team visiting and the VBS session for kids. The children remained chaotic and fun.

Before the start of the semester, we took several opportunities to fellowship with our staff and church members. We went to the beach during the weekend, and we visited with friends at home or the malls.

I am delighted to say that my Visa finally came through, and I can stay for another three years! I have been in Japan for almost seven years. I pray that God will use me to reach out to the Japanese people.

As we prepare for the semester, we are expecting seven students. This semester will be the final semester for one of our students.

Prayer over her to finish well and strong. This semester, I am teaching Deuteronomy and the Block Class for 1-2 Chronicles.
I am grateful for those who continue to support and pray over the ministry in Japan, reaching out to the people here, as well as raising up young aspiring believers in the Word. I received word that there are some changes that some people may need to update their PO Box. If you wish to give further support, here is the updated link for the GoinChrist Outreach page: https://goinchrist.com/missionaries/entry/24543/

Prayer Requests-

I am thankful for all that the Lord has provided, in finance and direction. With the loans finished, I can now focus on other necessities and savings. I am currently paying taxes and pension, which unexpectedly came unto my lap.

Pray for all of the students. Pray that these kids will have no obstacles in their needs or spirit. Some are receiving spiritual attacks in anxiety, while others are concerned over finances.

Please continue to pray for the families in Miyagi Prefecture (Higashimatsushima and Ishinomaki). Pray for the Robbs family -Emily to grow healthy and strong, as she is showing more signs of mobility and strength. Pray for another family, the Camerons, as they are making their permanent home in the area. They have a vision to host other missionaries coming in.

Prayer over the semester, for all of the students.
