

Planning

Summer can be filled with activities, vacations, and just things you want to do while not in school! Do you have a plan? Just as budgeting can help with money, writing down schedules can help plan your activities and keep frustration from creeping in. And don't forget to plan your time with God. When are you setting aside time to read scripture and connect with the Almighty?

Prayer Challenge

Continue to pray for the search team as calls are made, candidates are discussed, and we seek His will in the process.
