

## **WHAT WOMEN WISH MEN KNEW**

Pastor Benson Xavier (BX) – 13 April 2014

Finders Keepers Series

LIFEGROUP Questions

This is the final episode of the series 'Finders

Keepers'. I hope you have found the discussions enriching. Our focus in the conclusion of this series has been on understanding the differences between men and women. Last week we discussed what men wish women knew and this week we want to discuss what women wish men knew. The goal of this series goes beyond restoring romantic relationships. It is meant to help us model healthy relationships as God's people so that we can fearlessly influence society.

### **DISCUSSION QUESTIONS**

1. Women do not want affection; they need it! Share what you think affection means. How did you arrive at that thought? Who taught you? Where did you pick it from?
2. In what ways has society treated women as lesser than men? How have women reacted to this?
3. Wives support their husbands in providing for the family therefore husbands should support their wives in domestic chores. Discuss.
4. How can men make the single ladies in church and LG feel protected yet maintain purity?

### **CONCLUSION**

God uses those He has put in our lives as messengers for our character development. Let us not be quick to cut off links with people who are 'constantly annoying'. The friction we experience helps us to grow towards Christlikeness. If a relationship has to end, it should be done in a manner that honors God and leaves an open door of reconciliation. May the Lord heal the hurt and pain we carry as a result of relationships and friendships gone bad.

### **PRAYER**

1. For humility. That we'll truly take up the lessons learnt from this series to become better people in the way we treat the opposite gender regardless of our perceptions
2. For God to continue working in us, healing us and reconciling broken relationships. May we thrive in our relationships
3. By the power of the Holy Spirit that is in us, may the Lord constantly remind us that as His children we are to be the examples to the hurting world. May we positively influence the relationship culture in this nation, being the change we want to see. Lets not sleep on the job!
