Tom, Marla, & Chloe McLane –Your Missionaries to Africa

## Greetings from the McLane Family

As we start the new year, the McLane family would like to take a moment to thank you for your prayers, support, and partnership. It has been a tremendous year serving with Convoy of Hope (COH) on behalf of the Assembly of God World Missionaries (AGWM) in Africa. We have been able to accomplish a lot in the area of spiritual development, children’s feeding, women’s empowerment, and agriculture. Through God’s presence and your partnership, we have seen people transformed, reconciled and made whole.

One of our favorite areas of ministry in 2019 has been the Uganda refugee settlements. Roughly 1.3 million South Sudanese had to flee their war-torn nation and escape to safety in Uganda. During a recent visit to one of the refugee settlements, I was reminded of the love of Jesus. Here I am walking down a hot and dusty road and I stop to say hello to a refugee family. The next thing I know, I’m sitting under a shea nut tree having a cup of tea with them. Individuals who days before walked untold miles to refuge are now offering me a cup of tea in the midst of their own chaos and confusion. The beauty of the moment lies in the people helping a stranger through hospitality.

I love working as a representative of COH and AGWM because we are able to bring hope to people who are hurting and vulnerable. We are able to show them respect and dignity while at the same time being representatives of Jesus Christ. It doesn’t get any better than that and we have you to thank for partnering with us.

### Prayer Requests

- Please be in prayer for Tom! After a routine checkup in late October, it was discovered that Tom has bile duct cancer. He started chemo in December.
- COH opened up a new development program center in Burkina Faso, please pray for peace in Burkina.

COH is on the ground in Africa, working to keep every child healthy and happy. We do this by working with the most vulnerable to make sure they have one nutritious meal a day.

To make the feeding programs sustainable, COH works with mothers to provide health, nutritional and entrepreneur training.

Lastly, at COH our mission is to help promote agricultural beyond the current level of subsistence to a level of commerce and improving health of communities.
