Update on Pastor John

We are thrilled to report that Pastor John's recent check up was very positive. Many of the restrictions he was under have been lifted-praise God! He is able to drive again, and we'll continue to see him more involved in the life of our church. We are so thankful for this positive step in his recovery, and we look forward to seeing more of his presence! He is SO appreciative of the prayers and support he and Patsy have received over the past few weeks. Please continue to lift his recovery to the Lord. Continued prayers and cards are welcome; please respect the family's request for no visitors at this time. He sends his best to his Community Church family!

Building News

Have you all seen the circular cages in the church's yard as you walk in? Get a good look at them now, because once they are put into use they will never be seen again! The more accurate term is caisson cage, and they will be used in the foundation of our new worship space. It is a neat thing to see what will provide a solid base for the space that will be a house of worship. A place to meet Jesus. A place to encounter the Holy Spirit. A place to see God moving in our lives and in the lives of the people who will come to know Him through the work Community Church is doing in His name! So are they just some metal cages? Yes. But will they be the firm foundation that is the base of some amazing opportunities that we can't even imagine? YOU BET! As construction progresses, these cages will no longer be seen--as you leave church, take a minute to pray for the firm foundation of Community Church.

Traffic Patterns

Please use caution, care and patience when entering and exiting our campus. Signage and lots of friendly faces will help direct you as you come and go, but we ask that you take your time in the parking lot. For the next 8-9 months, our traffic patterns will remain the same. You will enter the parking lot as you normally do. You will no longer have the option of proceeding to the right of the building to the back of the church. Instead, you will drive along the front of the building (note that the parking in the top lot will not be available, see below). To access the rear parking lots, you will use the lanes between the MMR and the Ministry House. This will be a two lane traffic pattern, and we ask you to use great care driving in this area. Be alert for oncoming traffic as well as adults and children making their way into church.

Parking Lot

We understand that parking will be less convenient during construction, including not being able to park in the top parking lot. We apologize in advance, and we hope that you'll find this to be just a short-term inconvenience. Please plan to allow a few extra minutes to get into our campus and park. We would like to ask our members and regular attendees to please come early to service and stay and fellowship a while before leaving after services. Also, if able, please park away from the building in order to help our guests/visitors and those with mobility problems to feel more comfortable and have easy access to the Church. Thank You for your cooperation during this busy time. If you have concerns regarding the parking lot, contact Elizabeth Somes (esomes@communityumchurch.com).

Need a lift?

If you have difficulty walking to the sanctuary or MMR, we have several wheelchairs that can be used to get you there. We have also designated the pull-off area by the elevator entrance as a drop-off point. Please inform one of the friendly Parking Lot Ministry Team Members (wearing an orange vest or shirt) of your needs when you pull into the lot.

Construction Area Off-Limits

We are excited about construction ramping up, and we hope you are too! We are thrilled to see construction starting—but let's watch from a safe distance! Please note that construction sites are inherently dangerous. Please ensure that you and your children stay safe by not venturing past the construction fencing, even when construction workers are not onsite. Although the area may appear safe, tripping hazards and other hidden dangers are likely present. Next year, we will be scheduling tours of the new sanctuary when it is safe to do so. We thank you for your patience as we begin this exciting stage in the church's history.

Entering the Building

Due to construction, the ONLY entrance to the building will be the double glass doors by the elevator. You can access the second floor via the stairs or the elevator. For safety purposes, you will be able to exit most doors in emergency situations, but please plan to enter the building using the glass doors by the elevator.

Building Use

For years, we've tried to live up to our name with regards to providing use of our building. We've opened our doors to the community for baby and bridal showers, birthday celebrations, sporting events and other gatherings. While we are under construction, our space is limited, and it will be our priority to reserve room for the ministry events of Community Church. For this reason, we ask that you consider other venues for non-ministry events as we will not be able to accommodate requests for community events. Thank you for understanding!

Construction Project Point of Contact

If you have questions about the project, please feel free to contact Deb MacAllister (dmacallister@communityumchurch.com) or Heather Dolhi (hdolhi@communityumchurch.com). They will be attending weekly progress meetings and working closely with McKnight throughout construction. McKnight has requested that a point of contact be maintained to reduce confusion and maintain continuity.

Thank you for your continued prayers and patience as construction continues!
