Greetings Congregation and Friends,

Thank you for taking time to fill out the questionnaire that was recently sent. Your responses are helping us to ensure that we are making the best recommendations to the Session for the entire congregation. Your responses and comments have been prayerfully reviewed and considered and we will share the survey results in the near future.

As around 75% of you responded, the aspect of worship you miss the most is the people. Our team has been working to create a safe, low risk environment for worship. This includes an on-line presence for those that cannot attend in person. All the equipment has been ordered and most has arrived with the rest expected in the very near future. New safety measures include the need for more volunteers than we usually have serving on a Sunday morning.

We need YOU to begin in-person worship. Volunteers are needed for roles as guides, worship leaders, ushers, musicians, camera and equipment operators, and cleaners. Our desire is to begin training volunteers in their chosen roles the week of September 14.

Again, thank you for your input and prayers. For those who are willing to volunteer we ask that you please contact Dave Cooper, Alan Cushen, or Ander Beain as noted in the table below.
