

United Church on the Green

4-18-18/JIR

Community Support Programs

Part of the church's mission is to provide meeting spaces for area community service groups and organizations. Our two buildings are heavily used on a weekly basis in this regard. There are often upwards of 800 separate individual meetings, events and activities by groups from our church, from other churches and by local community organizations every year. Facilities are offered with fees based on the organization's mission value and their ability to pay. Sextons are scheduled all non-church events. We are always interested in hosting new groups with charitable public service missions. We also make our facilities available for birthday and anniversary parties, weddings, funerals and memorial services and family receptions.

- Resident organizations past and present:
