REFLECTIONS:

- ♦♦♦ Who was God's friend in the story? What did God tell him to build?

- ♦♦♦ When God told Noah to build an ark, it had never rained before, much less came a flood! Do you think people thought Noah was smart or crazy for building a giant boat? Why did Noah trust God when he asked him to do something that absurd?

- ♦♦♦ Noah trusted God when His directions seemed crazy to everyone else, and people were making fun of him for building the ark. Has there been a time you trusted God in a situation that was hard? Maybe your family or friends thought what you were doing seemed silly? The first thing Noah did when He was back on dry land was thank God. God had made a promise to take care of Noah's family, and because of Noah's faith, He did just that. When God brings you through a tough season, or answers a prayer that you've prayed about for a long time, do you remember to thank Him? How has trusting God in tough situations affected your faith in Him?
