

# Daniel Levin, MD, FACOG

**Education:** M.D.: Universitaet Wien, Medizinische Fakultae - Vienna, Austria

**Residency:** University of Illinois, Chicago, Illinois

**Board-Certified:** American Board of Obstetrics and Gynecology

**Fellow:** American College of Obstetrics and Gynecology

**Member:**

- American College of Obstetricians and Gynecologists (ACOG)
- International Society of Cosmetogynecologists (ISOG)
- American Board of Obstetrics and Gynecology (ABOG)
- American Medical Association (AMA)

**Clinical Instructor:** University Medical Center of Mississippi, Jackson

**Work History:**

- University Center of Vienna, Austria
- Beilinson Hospital Tel Aviv, Israel
- Hoffman Estate Hospital Chicago, Illinois
- Jackson-Hinds, Jackson, Mississippi

**Research Work History:**

**Clinical Investigator. 6/00 – 06/02.**

**Christ Hospital Chicago, Illinois.** Supervised by Dr. Denise Elser. Research on whether the sterile glove technique plays a role in preventing infectious sequelae in patients undergoing urogynecologic procedures.

**Clinical Investigator. 4/97 – 6/98.**

**University Hospital of Vienna, Austria.** Supervised by Prof. Peter Husslein. Ethics in Obstetrics: Established a multi-center data bank of pre-term babies (24-28 weeks gestation), focused on Obstetrics management, psycho-social problems, and neonatal management.

**Clinical Investigator. 5/96 – 6/98.**

**University Hospital of Vienna, Austria.** Supervised by Prof. Peter Husslein. A prospective randomized study. Analyzed the ideal time for intracutaneous suture removal post low transverse Caesarian Section.

**Clinical Investigator. 4/96 – 6/98.**

**University Hospital of Vienna, Austria.** Supervised by Dr. Claus Reisenberger. Measured mercury levels using maternal blood, sputum, maternal milk, and umbilical cord blood samples taken from pregnant women with and without amalgam fillings.

**Research Intern. 4/96- 4/97.**

**Sackler School of Medicine, Tel-Aviv University, Israel.** Supervised by Dr. Samuel Levin and Dr. Alexander E. Benet. Analyzed post-surgical data to evaluate the safety and efficacy of new minimally invasive treatments for female stress urinary incontinence.

**Research Intern. 7/94- 2/96.**

**University Hospital of Vienna, Austria.** Supervised by Prof. Arnold Pollak, Department of Neonatology and Pediatric Invasive Care. Studied the effect of surfactant treatment and its prevention of neonatal respiratory distress syndrome.

**Research Intern. 10/94- 2/96.**

**University Hospital of Vienna, Austria.** Supervised by Prof. Arnold Pollak, Department of Neonatology and Pediatric Invasive Care. Studied the application of surfactant into amniotic fluid in suspected premature delivery as a measure to prevent neonatal respiratory distress syndrome.
