(1556 years from Adam to Shem)

"since the creation of the world His invisible attributes, His eternal power, and divine nature have been clearly seen, being understood through what has been made, so that they are without excuse"

Romans 1:20

### Good things come in threes (trinities)

Universe	= time, space, matter
Nature	= past, present, future
Space	= width, depth, height
Matter	= solid, liquid, gas
Atoms	= protons, neutrons, electrons

**DNA**

"If it could be demonstrated that any complex organ existed which could not possibly have been formed by numerous successive slight modifications my theory would absolutely break down" Charles Darwin **On Natural Selection of the Favored Races in the Struggle for Life** AKA **The Origin of Species**

- Your DNA placed end to end, will stretch from here to the moon 100,000 times.
- Your DNA information, in typewritten form, will fill the Grand Canyon 40 times.
- Yet, All your DNA would not fill two teaspoons.
- DNA has 10<sup>600</sup> possible combinations of nucleotides (That's 1 with 600 zeros behind it)
- Those are the odds of having one part of a DNA strand randomly mutate into existence
- **Irreducibly Complex:** It cannot be reduced to anything less than it is and maintain life.
- **Psalm 139:14** We are "fearfully and wonderfully made"

Genesis 1:26

"Then God said let Us make man in Our image according to Our likeness"
