"When you love them, you will connect by showing up predictably, mentally and randomly. When you love them, you will naturally create a safe place for them to clarify their faith. When you love them, you will partner with others who love them in order to nurture and everyday faith. When you love them, you will want to inspire them through your example. When you love them, you will engage their faith with things outside your circle."

"your 'few' are not problems to be solved, they are people to be loved"
