

What do you believe? Your answer to that question will have profound implications for your life. For hundreds of millions of Christians, the Apostle's Creed has helped them answer that question.

In this book and through video segments, Adam Hamilton explores this historic creed to not only explain traditional Christian beliefs and why belief matters, but also engages contemporary questions about science, the problem of violence, and atheism. This study will help us discuss the basics, clarify what we believe, deepen our faith and encourage us to live lives of love.
