Who We Are

Collateral Hope & Recovery is a fellowship of Men & Women coming together through the Grace of God, and the Life Saving Good News of Jesus Christ.

All welcome. The only requirement for membership is the desire to overcome our individual trials and our life controlling conditions. Some of us seek to heal from the devastating collateral damage of the drug epidemic, its losses, traumas, & violence, while others are seeking deliverance from our own individual misdirected drives, passions, and addictions. Whatever the starting point, we come by faith in equal need of Hope.

Addictions and other life-controlling problems create the destructive ripple effect & collateral damage spreading into others lives. When we embrace Collateral Hope & Recovery, we see a new wave and ripple effect bringing life, hope & healing to others.

WHAT WE ARE & WHAT WE ARE NOT

We lay aside our own personal ambitions & agendas, and refrain from promoting or debating doctrinal & denominational differences, or political agendas. Collateral Hope does not provide medical or clinical counseling or treatment. We're not a replacement for the local church but seek to compliment local congregations. We encourage members to engage in and become active in the local church.

We are not a 12 Step Program but based on 3 principles. Many of our members are in various recovery centered fellowships which we support.

While we seek to help those overcoming devastating losses from addictions and lifestyle, we are not a grief and loss group, but point individuals to the healing power of God.

Our Principles

Collateral Hope is rooted in 3 Biblical Principles. We give special thanks to Dr. Bob, the Co-Founder of Alcoholics Anonymous, who "prescribed" these life saving & life changing principles for individual wellness.

- 1) Trust God
- 2) Clean House
- 3) Help Others
