September 20, 2016

Board of General Presbyters
General Conference in Session
United Pentecostal Church International

Greetings in the name of the Lord Jesus:

Compassion Service International (CSI) is pleased to present to you our 2015-2016 activity report. This year has seen its share of disaster and suffering around the world and CSI has been privileged to respond to several crisis situations here in the United States and abroad.

Some of the places CSI has helped in 2015-2016 are:

- Belize
- Fiji
- Guatemala
- Myanmar
- Burkina Faso
- Additional funding to Nepal for continued earthquake relief
- Uganda
- Louisiana
- South Sudan
- Texas
- Ecuador
- Zimbabwe

CSI continues to send medical mission teams to areas around the world where medical care is hard to find. In February of 2016 CSI sent a team of medical personnel to Haiti where the team held a week of medical clinics and in May of 2016 CSI sent a team of medical personnel to Ecuador after a devastating earthquake caused widespread destruction.

None of this would have been possible without the support of the leadership and the great fellowship of the United Pentecostal Church International.

Blessings,

Scotty Slaydon

Director Compassion Services International
