# Widow's Might

Changing the world through prayer

## WIDOWS PRAYING FOR WIDOWS

As widows, we understand losing a spouse has unique challenges and emotions. Today, we come together as a community to support and uplift one another through the power of prayer. Let us intercede on behalf of our fellow widows, seeking God's intervention and trusting His unfailing love and grace.

### 1. Protection:

In vulnerability and uncertainty, let us fervently pray for God's divine protection over our widowed sisters. We understand the importance of feeling safe and secure. May God surround them with His heavenly angels, shielding them from harm, danger, and any negative influences that may come their way.

### 2. Strength:

Grieving and navigating life as a widow can be overwhelming and exhausting. Let us lift our voices in prayer, asking God to be the ultimate source of strength for our fellow widows. May He infuse them with His power, renew their spirits, and grant them the energy to face each day with courage and resilience.

### 3. Provision:

Financial concerns often weigh heavily on widows' hearts. Let us pray that God, the ultimate provider, supplies all their needs. May He open doors of opportunity, grant them financial stability, and meet their practical requirements. Pray that our widowed sisters experience the assurance that God will never leave or forsake them.

## This month's prayer requests:

---

Pray for the students our representatives met on Youth Ministries serve projects. Pray that they will continue connecting with CSI to change the world.

---

Pray for Haiti and India. They continue to be hotspots for persecution and attacks on Christians.

---

Pray for Tony & Rhonda Adams, Krakow, Poland. They have been responsible for overseeing the hotel opened for Ukrainian refugees. It has provided housing, strength, and restoration to over 1000 refugees for the past fourteen months.

Even though the hotel is closing, the classes, daycare, meals, and help for refugees will continue at their church. Let's pray for their increase in finances and reach to the nation of Poland and the people of Ukraine.
