

EXPERIENCE CONFERENCE

GAYLORD PALMS RESORT & CONVENTION CENTER

SEPTEMBER 8TH-11TH, 2020

COVID-19 Health and Safety Policies

For detailed information on the Gaylord Palms Resort and Convention Center's health and safety cleanliness standards, please visit <https://gaylordhotelsclean.marriott.com/>

- All protocols adhere to CDC guidelines and Osceola County ordinances.
- All attendees, staff and vendors are required to wear face masks.
- On stage, only active speakers and artists are allowed to remove masks but must maintain 6 foot social distancing.
- All chairs in workshops and the general session room will be spaced apart with a 6 foot radius. We have an exception for "parties" (i.e. husband and wife, or families that attend will be able to sit together), but there will be 6' between them and the next group.
- Hand sanitizer will be available throughout common spaces.
- Social distancing shall be maintained in public spaces, such as hallways, lunch room and exhibit hall.
- The Gaylord Convention Center staff will be thoroughly cleaning all public areas, including door knobs and inside rooms, overnight.
- The hotel reserves the right to temperature check anyone at any time. They will have mandatory temperature checks for everyone in the backstage areas.
- The Experience Conference has gone above and beyond CDC requirements and has purchased chemical sprayers and will be spraying down all chairs and door knobs between every workshop and between every general session.
- Any volunteer handling items that will be distributed (i.e. bag inserts, giveaways, conference bags) will be wearing gloves and encouraged to change them frequently.
- Anyone exhibiting COVID-19 symptoms will be asked to leave as well as their party.
- The Experience Conference will use the platform to encourage hand washing, social distancing and best hygiene practices among all who are attending the conference.
