

## LOCAL MINISTRY VISION AND GOALS

### ENGLISH AS A SECOND LANGUAGE

#### VISION:

Internationals in our city have real tangible needs that our church can meet. Real community and English help are two vital needs for most internationals in our city. Teaching English gives us real opportunities to connect Internationals with the church and Jesus by bridging their culture and community with ours.

#### GOALS:

##### Short Term

- Show up monthly to provide support for teachers and regular attenders.
- Meet new students, learn their names, where they are from, what they do in the city, and how long they will be around.
- Share stories about your life and experiences so students can know you better and feel more comfortable around you.

##### Mid Term

- Show up as a weekly volunteer. Invest in the lives of students. Know their names and stories.
- Invite students to attend church on a Sunday morning with you.
- Show up early to pray over our time and students. Look for opportunities for students to learn more about Jesus.

##### Long Term

- Lead small group discussions with students each week.
- Spend time outside of Monday nights with students. Invite them to your home. Eat at their favorite restaurant.
- Begin having one on one spiritual conversations with students.
- Introduce students to others in the church community and begin helping them build relational bridges into the church.
