

## LOCAL MINISTRY VISION AND GOALS

### ST. JUDE TARGET HOUSE

#### VISION:

We help to bring joy, love, and peace to families and children experiencing great difficulties and sickness by interacting, laughing, and playing with them. It is through these times that the door to Jesus is most wide open as our church can learn and help families in radical ways.

#### GOALS:

- Prioritize the needs of kids in this time. Playfully encourage and help through crafts or games.
- Mention you are serving with Island Community Church. Invite them to come.
- Interact with parents, share that our church would love to help them in any way they can think of.

#### Mid Term

- Apply for a volunteer position through St. Jude. Spend around 5 hours a month bringing hope to kids and families.
- Visit families, on your own time, that are at St. Jude hospital.
- Love specific families in unique ways (gifts, encouraging letters, practical helps)

#### Long Term

- Introduce families you connect with to others in our church that can also connect and love them.
- Share the Gospel hope you have in Jesus, and how they can also receive God's grace.
- Advocate and search for the needs of specific families, and be the owner of our church community loving them well.
