

CGBC CoVid-19 Outdoor Gathering Precautions & Recommendations

Please remain at home you or any of your family members are awaiting CoVid test results, have had recent (last 14 days) exposure to CoVid-19 or have had any of the following symptoms: shortness of breath, cough, fever, fatigue, rash, sore throat, congestion, GI symptoms, loss of taste/smell etc..

Please adhere to the following guidelines in consideration for others, especially the most vulnerable among us:

- **Social Distancing:** It is understood we seek to have at least 6 feet between each person or family group.
- **Masks:** When moving among other people/groups, please wear face masks, until at least a 6 foot distance can be assured.
- **Strict hand washing:** Please use your personal or provided hand sanitizer with a 20 second scrub prior to entering the worship area and upon leaving. *We strongly encourage you to bring your own.*
- **Please don't touch your face,** especially your nose, mouth and eyes. These are all common entry points for infection.
- **Bathroom accessibility:** If necessary, please use only the outside bathroom located in the pavilion. Please wipe down all contact surfaces before and after you use the bathroom. After washing your hands, please leave the door open.
- **Children:** We ask parents to keep their children with them during the scheduled gathering. Playground will not be available or supervised during the gathering.
- **No Singing:** Unfortunately, no singing in worship for now. The risk of projection of droplets or aerosols over greater distance is too high with group singing, yelling or even with high volume speaking.

**This is in compliance w/ CDC and VA governmental recommendations. Recommendations slow the transmission of viruses, but necessarily do not prevent transmission.
