

## **What's the connection between Janice, stamp collections and Stewardship?**

STEWARDSHIP, Friday, October 30, 2020

My parents were stamp collectors. They collected whole sheets, quarters with the color blocks, first-day-of-issue, and special stamps.

My brother has the collection now. Guess his dismay when he discovered that the stamps are worth no more than their face value. What to do? Sell the collection or use the stamps?

So, in the mail the other day, I received 175 stamps, of various denominations, from 5-cent to 32-cent values. All Christmas stamps. The problem is, of course, if I want to paste them on Christmas cards, the stamps will cover the whole envelope.

You, on the other hand, have to paste only one 'forever' stamp on the envelope you use to return your 2021 pledge card. How easy is that?

Returning your pledge card is so important. The Finance Committee uses our pledge totals to create the Ministry Funding Plan for the next year. We hope the church will reopen and that we'll Worship together as well as fulfill the Mission we honor.

We need your pledge to establish a financial guide for LPPC. So please fill out the pledge card, pop it into an envelope, stamp it, and mail it pronto. Thanks.
