

Release of Liability for Counseling

Central Community Church is providing counseling to you free of charge as ministry to your referring clergy. This care is designed to help you address life issues from a biblical perspective. We offer limited advice, which will continually direct you toward God's Word and Christian resources or referral.

If you are to receive continuing care, you are required to do the work recommended in a timely fashion. You may be asked to purchase materials or books assigned. Incomplete assignments or failure to comply with recommendations may necessitate conclusion of the counseling, under sole discretion of the counselor provider.

Counseling meetings are established at times convenient for both you and the counselor. You are asked to notify the counselor 24 hours in advance if you need to cancel an appointment. If the counselor must cancel the meeting, he will contact you as promptly as possible.

Each care session may be tape recorded (video and/or audio). All information shared with the counseling Pastor will be considered confidential. All notes, audiotapes, and videotapes will be held in a secure area and are considered secure under pastoral privilege. Their contents will not be revealed without your written consent.

By your signature below, you agree with the preceding provisions, and give full approval and permission for videotape and /or audio recording of the complete pastoral care session(s). You also clearly understand that you are responsible for any life decisions you may make as a result of this care.
