Series: FAQ

Scriptures: Selected Texts

Bottom Line: God works in healing and suffering to shine His light in us.

Questions we will be answering today:

- Why are some people healed by prayer and others are not?

- Is healing based on my faith? If I am not healed, does that mean I don't have enough faith? Does God always heal us now, eventually, or eternally?

- How do I pray for loved ones that have given up and don't want prayer for healing? Their sickness has caused them to give up and they have a difficult time functioning.
