

Hello CovP Nursery Families!

We are overjoyed to share with you the Re-opening of our Nursery Doors. We are excited to be back in action and looking forward to seeing our CovP Kiddos. Things will be a little different than before, but rest assured, our policies and procedures are in place to keep our children and staff safe and healthy.

1. Only teachers and children will be allowed in the Nursery, during worship service time.
2. Temperatures will be taken and recorded of each child, by use of a non-contact thermometer, before the child is allowed into the Nursery. Any child with a fever of 100 or more will not be allowed to stay).
3. A health screening questionnaire will be answered each visit by parents.
4. Nursery Staff will wash the child's hands upon entering the Nursery.
5. Any personal items brought into the nursery will be stored away from other's reach, and will be returned at pick-up.
6. Sign-in/out sheet will be located outside the Nursery entrance (it is recommended that you bring your own pen).
7. Children will be spaced out in every other seat at the tables for snack and/or tabletop activities.
8. Door(s) will be open for ventilation purposes, whenever possible.
9. Staff will undergo a health screening each day, before their workday begins (no-contact temperature check, visual screening, and a questionnaire).
10. Both children and staff will be monitored throughout the duration of worship, for health purposes.
11. Handwashing will take place after any snack, diaper changing, use of restroom (for staff or kids), and whenever babies change staff hands.
12. Toys will be cleaned and sanitized after each child's use, and not shared.
13. Tables and chairs will be cleaned and sanitized after each day's use.
14. A deep cleaning of the Nursery will take place after each use (currently we are only using it for Sunday's worship).

The questions you will be asked prior to drop-off will include the following:

1. Has your child or anyone in your household had a fever, cough, difficulty breathing, or any other signs of illness in the last 24-hours?
2. Has your child or anyone in your household had exposure to another individual with suspected or confirmed COVID-19?

We respectfully ask that you keep your child home if they have any of the following symptoms:

1. Fever (must be fever-free, without medication, for 24 hours).
2. Cough or runny nose.
3. Difficulty breathing.
4. If they, or you, have been exposed to anyone that is ill.

Even with these precautionary procedures in place, there isn't a guarantee that our little ones, or staff, will not become ill. May the Lord bless and protect us at all times, placing a hedge of protection around us to keep us well. May He continue to give us His wisdom on how to effectively implement safety protocols to keep us healthy.

Thank you for the opportunity to provide the best care of your children. Blessings to you and your family.

With Gratitude and Love,

Mayra Hernandez
CovP Kids Nursery Coordinator

Lisa Ygual
CovP Kids Director of Children's Ministries
