

COVID CARE

COVID CARE was developed in conjunction with our Communicable Disease Plan (CDP) to preserve the camp experience while protecting our camp population. It was designed taking into consideration guidelines from authoritative and regulatory sources (e.g. CDC, American Camp Association, WI DATCP, etc.), as well as through informed consultations with select experts in health care, including camp's consulting physician and the Walworth County Health Department.

This reflects current guidelines (as of August 1st) being taken to safely operate and plans for any potential situations regarding COVID-19 or other communicable diseases. Please note: **COVID CARE** is nimble and adaptable. We continue to evaluate best-practices and make adjustments according to the latest available medical information/rapidly changing public policy information.

BEFORE CAMP

We ask that groups and other guests pre-screen participants prior to camp and exclude the following individuals from participation:

- Anyone with a temperature of 100.0° F or greater within the previous 72 hours
- Anyone who has flu-like symptoms (fevers, chills, cough, congestion, sore throat)
- Anyone who has gastrointestinal symptoms (nausea, vomiting or diarrhea)
- Anyone who has had close contact with person(s) w/ above symptoms within the previous 14 days.
- Anyone who has traveled outside the United States within the previous 14 days.

AT CAMP

PERSONAL INTERACTION

- When feasible, gatherings, classes or activities are moved outdoors.
- Modified dining experience to reduce or eliminate exposure to others.
- Modified or eliminated large group gatherings or activities.
- Encourage sleeping head-to-toe in cabins to maximize distancing.

FACILITIES

- Guests agree to limit non-essential persons/ restrict visitors during their stay at Timber-lee.
- Cabins and rooms utilized by guests are cleaned & sanitized before and after use.
- Restrooms are cleaned and sanitized daily.
- Contact surfaces are sanitized regularly.
- Increased availability of hand sanitizer at locations throughout camp.

HEALTH & WELLNESS

- Face coverings are REQUIRED in all indoor spaces, or outdoors when physical distancing is not possible.
- Staff subject to health screening prior to beginning work assignments.
- Frequent hand washing and use of hand sanitizer is encouraged for staff and guests.
- Staff and guests are encouraged to cover their cough or sneeze into their elbow or shoulder.
- As Timber-lee cannot provide dedicated facilities for the isolation of ill participants, guests agree to isolate ill individuals in their cabin and arrange for immediate removal of affected participants.
- Guests agree to notify us if a participant is sent home during their time with us.

AFTER CAMP

- Guests agree to contact us if any participants develop a febrile illness within 14 days of attendance.
