

Reformed Mission Services was introduced to Pastor Nicolás Vaca and his work in Cochabamba, Bolivia over 5 years ago. In 2016 RMS was asked by MINTS Theological Seminary (MINTS) to start raising funds for a church, parsonage, seminary, and student housing for the work that they were overseeing there. During the first few years of the project, we were able to raise approximately \$30,000 and the church and parsonage were built! Those funds also allowed the seminary and student housing center to be started.

In the past few months, we have been seeking to raise \$20,000 to finish the building. We have currently raised \$11,000 and only have \$9,000 to go. Once these funds are raised, local contractors will be hired to complete the work. Dr. Neal Hegeman, from MINTS, has made multiple trips to Bolivia to help train men to become pastors for the churches of Bolivia through this church and seminary.

This is the building we are raising funds to finish.
You can see we are almost there!

This picture shows the work being done inside the building.
