

Text Giving Directions

Text giving is an easy way to give your tithes and offerings through the use of your phone. The first time you use this method it will take about 2 minutes to set up your payment method, which is saved for future text gifts.

Text our church's keyword (CTKLC), along with a dollar amount, to the phone # 73256.

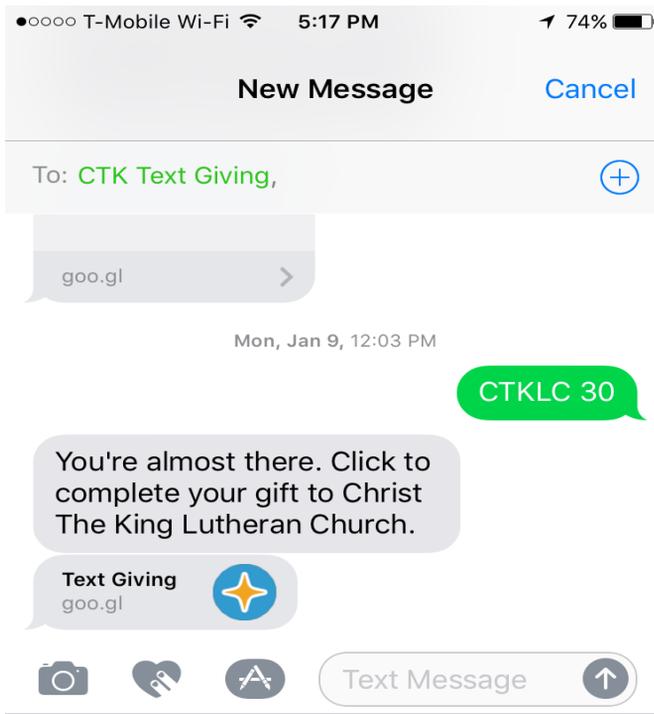

Any time you give using text giving, you always use the same phone #, and the same keyword.

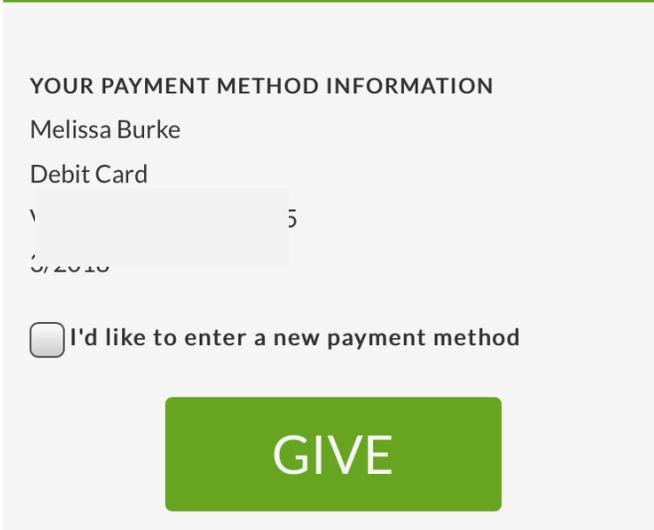

You will receive a return text with a link to set up your payment method.

In the top photo, this user's phone requires the user to accept the link first (tap to load preview).

Then the link appears to touch (Text Giving) – see bottom photo.

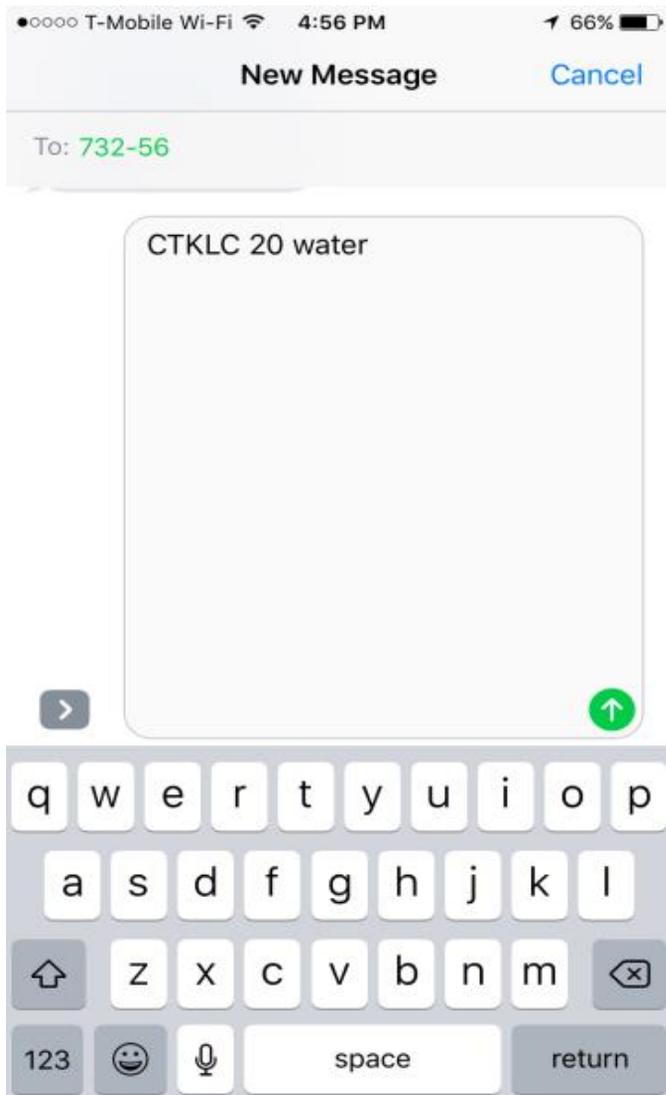

After clicking on the Text Giving link, this is what you will see.

Here you can change the amount you are giving. You can also change from giving to the general fund (tithes and offerings) to a different fund that is currently a choice for text giving.

If you want to give for an option not listed, you will need to use a different method of giving.

If this is your first time giving using the text giving option, this is where you will enter your payment information. You can choose credit card, checking or savings account. Once you have put in your payment information, the next time you give, it will remember you.

Now click on GIVE, and you are done!
Congratulations. Text giving is so easy!!!

But Wait! There's more!!

You can also use this method to give in other ways. For example, if you want to give \$20 for Water to Thrive you would type in CTKLC 20 WATER and the text system knows to apply your \$20 to the Water to Thrive account.

Look for keywords in the bulletin, King's Page, and other announcements.

If you do not use a key word, your offering will automatically go to the general tithes & offerings fund.

Here is a list of our current keywords.

If you see "use keyword _____ to give," you'll know what it means!
