4	\$1500
4.5	\$1750
5	\$2000

A brief explanation of fees:

Capital Improvement Fee: This fee goes towards the capital expenses that the school needs to keep and maintain the facility (things in the building, not books). Capital fees do not go toward new building construction. They are supplemented by budgeted money from the general fund of the school. The Capital fee is 100% tax deductible and is included with the tuition portion on your annual tax receipt.

Student Fees: These fees are based on the actual costs for field trips from the previous school year. For next school year these fees have been established based on the actual cost of this school year. This will be tracked and calculated according to grade grouping. Please note, you will not be reimbursed for activities if your child does not attend.

Office Use Only

Form Received: _____ Deposit Received: _____ Payments Received: _____
