

Last week we sent out a letter sharing Hisham's story, and we've been so excited to see how people across the country have responded!

I hope you've had a chance to read it, because Hisham's story is so powerful, and we're hoping **you** will be part of it.

Hisham's story is a great example of the way small acts can make a big difference, especially how he's using origami to help younger students succeed at school.

**Your gifts make a big difference too!** Hisham's life was changed, and now he's helping transform the lives of other students who have been touched by war. But he can't do it alone.

Will you give a gift today to make sure children like Hisham have the chance to learn and grow in peace? Just \$46 gives a child that opportunity.

If you've already responded, **thank you**. Your gift will make a difference. And thank you to everyone who joined Hisham's story by folding origami -- we love seeing pictures of individuals and churches who have taken a moment to remember Hisham's story, like in the picture above from Zion Lutheran in Beausejour, Manitoba.

**And remember, your gift of just \$46 gives a child the chance to succeed** -- can you give that opportunity to a child like Hisham today?

Blessings,

Carla Blakley
